

SC CHORAL RISER

The versatile SC Choral Riser is both compact and durable, perfect for choir performances in any venue. Because it is a mobile unit with casters, Staging Concepts' Choral Riser can be conveniently folded up and easily rolled into storage by just one person. Equally important, when folded, the SC Choral Riser can be tucked away using minimal storage space, then conveniently retrieved and set up at a moments notice – all without any tools! Because of a lift assist, the SC Choral Riser is simple to fold into a storage position and unfold to a performance configuration. The SC Choral Riser is available in standard 3-tier 6"x 18" units and can be arranged in straight or arced configurations.

Choral Riser Setup - Straight

Choral Riser Setup - Arc

Choral Riser - Storage Position

SC CHORAL RISER

ADVANTAGES

Efficiency

- Operable by one person for folding, unfolding and rolling
- Able to be set up without any tools
- Gas shock lift assist springs used to transfer riser from base onto casters

Durability

- Aluminum forming enhances the rigidity of the riser, providing a durable, quality product for years

Mobility

- Assembly is manually lifted onto casters as it folds, providing an even transition from performance position to storage position
- Swivel casters allow for trouble-free, easy maneuvering

Safety

- Rounded riser corners eliminate sharp exterior edges
- Lightweight unit and gas shocks eliminate excessive strain when lifting/folding

Variety

- Choose from a variety of tread surface finishes and colors to meet your choral riser needs
- Surface options: Carpet, poly vinyl, unfinished plywood, painted plywood
