

SC100 FOLDING BRIDGE FRAME

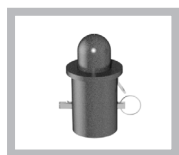

[SETUP INSTRUCTIONS]

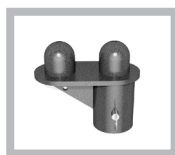

SC100 FOLDING BRIDGE FRAME INSTALLATION:

1. Unfold **SC100 Folding Bridge Frame** (creating a "C" configuration) and place in approximate location as shown in *Master Plan*. (Note: **Labels** are located on underside of **Cross-Member**.)
2. **Adjustable Legs** (if provided): Adjust leg by removing **FastPin** and telescoping **Inner Leg** to desired height, referencing *Master Plan*.
3. Place **Top Plates** on each **Vertical Leg** (see *Master Plan* for locations and orientations).
4. Proceed to **SC90 Platform** Setup Instructions.

WARNING: Leveling Foot 2" Maximum Height Adjustment.
